Academic Appointments

2018 **George Washington University**, Washington, D.C.
Assistant Professor, Engineering Management and Systems Engineering

2016 **Boston University**, Boston, MA
Postdoctoral Fellow, Institute for Sustainable Energy

Education & Training

2016	Carnegie Mellon University, Pittsburgh, PA	Ph.D. Engineering and Public Policy
2015	Carnegie Mellon University, Pittsburgh, PA	M.S. Engineering and Public Policy
2010	Virginia Tech, Blacksburg, VA	B.S. Engineering Science and Mechanics

Doctoral Committee: Jeremy Michalek, Erica Fuchs, Elea McDonnell Feit, & Valerie Karplus

Mandarin Chinese Training

2010	National Taiwan University, Taipei, Taiwan	Business Chinese (Huayu Scholarship)
2009	Heilongjiang University, Harbin, China	Intensive Chinese (Critical Language Scholarship)
2008	Liaoning Normal University, Dalian, China	Independent Study (Horton Scholarship)

Research Interests

Technology Innovation & Environmental Policy: Study the role of public policy in influencing technology innovation for environmental benefit.

Industry Evolution: Study how individuals, firms, and policy affect the nature & pace of technological change within industries, especially transitions to clean energy technologies.

Electric Vehicles & Sustainable Transportation: Assess how consumer preferences, economics, and policy affect the development & adoption of electric vehicles and sustainable transportation.

Market Analytics for Decision Making: Measure and predict consumer choice to assess product design for market competitiveness or policy analysis.

China: Examine the above topics in the context of China.

Teaching Interests

Programming & Data Analytics: Programming in R and Python; exploratory data analysis; data visualization.

Modeling: Consumer preferences, conjoint analysis, design decisions for markets; engineering, economic, and environmental modeling.

Team Projects: Open-ended, team-based projects that involve critical thinking.

Honors / Awards

A. Awards

- Finalist, 2018 Coase dissertation award, Society for Institutional & Organizational Economics.
- 2017 Best dissertation award, Industry Studies Association.
- 2016 Best paper in Innovation & Entrepreneurship Research, Industry Studies Association.
- 2013 Herbert Toor award for best Engineering and Public Policy qualifying examination paper.
- Eagle Scout Award, BSA Troop 11, Valrico, FL, July 7, 2002.

B. Fellowships / Scholarships

- Energy Innovation Policy and Management Scholar, Innovation and Information Technology Foundation, May 2019.
- 2014 Link Energy Foundation Fellowship.
- 2011 NSEP Boren Fellowship (Award Declined).
- 2010 Taiwan Huayu Mandarin Enrichment Scholarship.
- 2009 Department of State Critical Language Scholarship for Mandarin Chinese.
- 2007 Horton Honors Scholarship for 6-month independent study abroad in China.

- 2005 Eleanor Davenport Leadership Scholarship, Virginia Tech: Full tuition and fees (2005 - 2009).

Teaching & Education

A. Courses Taught at George Washington University

Sem.	Course (*developed course)	Level	# Resp. / # Enrolled	Instr. FCE† / Dept. Mean
F20	*EMSE 4574: *Intro. to Programming for Analytics*	Ugrad	NA / 18	NA
S20	*EMSE 4575: *Exploratory Data Analysis*	Ugrad	NA / 21	NA
F19	*EMSE 4574: *Intro. to Programming for Analytics*	Ugrad	16 / 23	5 / 4.3
S19	*EMSE 6035: *Marketing of Technology*	Grad	13 / 18	5 / NA

†Faculty Course Evaluations (FCE) are scored by students (1 = worst, 5 = best).

B. Courses Served as Graduate Teaching Assistant

S15, S13 *19670: Quantitative Entrepreneurship*, Carnegie Mellon University.
Gave lectures on conjoint survey design, survey fielding techniques, discrete choice modeling, and process-based cost modeling; advised student teams; managed survey fielding; held office hours; graded assignments.

C. Guest Lectures

F19 "Preferences at the Pump: Are Consumers Willing to Pay for Low-Carbon Fuels?" Lecture for *EMSE 1001: Introduction to Systems Engineering*, George Washington University.

F18 "Preferences at the Pump: Are Consumers Willing to Pay for Low-Carbon Fuels?" Lecture for *EMSE 1001: Introduction to Systems Engineering*, George Washington University.

S18 "Vehicle Electrification in China: Preferences, Policy, and Technology Trajectories" Lecture for *Science-Based Business Initiative Seminar Series,* Harvard Business School.

F17 "Vehicle Electrification: Market Trends, Policy, and Business Models" Lecture for course *PL851: Sustainable Energy Business Models And Policies.* Boston University.

F17 "Emerging Automotive Trends: Chinese, Electric, and Shared." Lecture for course *UA 510: Sustainable Energy Planning.* Boston University.

Su17 "Types of Energy." Lecture for *BU Upward Bound* – a high school summer college prep program for low-income and potential first-generation college students.

S17 "Vehicle Electrification in China: Preferences, Policy, and Technology Trajectories." Online Lecture for *Global Education Connection*.

F16 "Emerging Automotive Trends: Chinese, Electric, and Shared." Lecture for course *PL851: Sustainable Energy Business Models And Policies.* Boston University.

S15 "Conjoint Analysis and Discrete Choice Modeling." Lecture for course *19702: Quantitative Methods for Policy Analysis*. Carnegie Mellon University. [slides]

F14 "Electric Vehicles in China: A Nexus of Consumer Preferences, Policy, Innovation, and the Environment." Lecture for course *19711: Global Competitiveness: Firms, Nations, and Technological Change*. Carnegie Mellon University. [slides]

F14 "Penalty and Barrier Functions." Lecture for course *24785: Engineering Optimization*. Carnegie Mellon University.

F13 "The Chinese Car Market: Development and Electrification." Lecture for course *China Today: Economy, Technology, and People*. University of Pittsburgh & Carnegie Mellon University. [slides]

D. Educational Contributions

1. Courses developed at GWU
   (a) **EMSE 4574: Intro to Programming for Analytics** (*first offered Fall 2019*). Developed new introductory level programming course for undergraduate students using open source content available on the web. The course provides a foundation in programming for analytics using the R programming language with a comparison to Python.
   (b) **EMSE 4575: Exploratory Data Analysis** (*first offered Spring 2020*). Developed new course for undergraduate students using open source content available on the web. The course provides a foundation in exploring data using the R programming language, including how to source, manage, wrangle, explore, and visualize a wide variety of data types. All analyses are reproducible from raw data to results using RMarkdown. Students demonstrate mastery of these skills through a semester-long research project of their own design, culminating in a reproducible final report and a 10-minute presentation of their findings.
   (c) **EMSE 6035: Marketing of Technology** (*first offered Spring 2019*). This course introduces data analysis techniques to inform design decisions in an uncertain, competitive market. Over the course of the semester, students learn and apply theory and methods to a team project to assess the market competitiveness of an emerging product or technology. Students learn how to design and field conjoint surveys as well as how to source, manage, and visualize data and modeling results using the R programming language. Students demonstrate mastery of these skills through a semester-long research project of their own design, culminating in a final report and a 10-minute presentation of their design insights.
2. Course websites / tools
   (a) Developed autograder software for *EMSE 4574: Intro to Programming for Analytics*, enabling students to run tests on their homework assignments prior to submitting them for a grade.
   (b) http://p4a.seas.gwu.edu/ for *EMSE 4574: Intro to Programming for Analytics*. Open source lessons on the fundamentals of programming for data analyticsn in R with a comparison to Python.
   (c) http://eda.seas.gwu.edu/ for *EMSE 4575: Exploratory Data Analysis*. Open source lessons on sourcing, managing, transforming, and exploring a wide variety of data types in R.
3. Course video lecture series
   (a) Six lecture series on conjoint survey theory and practice for *EMSE 6035: Marketing of Technology*. [View on youtube]
